

Dear Elkhorn Area School District Scholarship Foundation,

I would like to thank you for your generosity in selecting me to receive two Arthur C. and Vira Desing Scholarships this year. I am honored to receive support from the foundation in pursuing a college education. My parents have always done their part in teaching me and my two siblings the incredible importance of education. This appreciation of furthering my education intensifies the gratitude that I feel towards your gift to me and other students that helps to make it possible.

I have enjoyed learning since I was very young, and I am eager to focus my studies in areas that especially interest me at UW-Madison. I love the diverse atmosphere, the acceptance of all walks of life, and the multitude of opportunities offered on campus. I believe being immersed and involved in your community is imperative for a successful and valuable experience. Fortunately, there is no shortage of organizations to join on campus, and I look forward to involving myself in as much as I can! I would also love to work in a lab to surround myself with professionals in the field and learn from them. The exposure to and participation in the research and discipline would be hugely beneficial to helping me along my journey. As an incoming freshman at UW-Madison, I am considering majoring in Microbiology as a solid foundation for my future schooling and career. I have been interested in the Medical Field for most of my life, and I intend on eventually attending medical school and becoming a Family Practitioner.

My passion lies in helping improve lives through positive interactions and compassionate medical care. I know that UW-Madison will be the perfect place for me to grow as an individual and eventually touch as many lives as I can, and I once again would like to thank you in helping me along this journey. Your altruism is so appreciated and it will help me to pursue more of the opportunities offered at UW-Madison. Thank you so much for your kindness to myself and other students like me.

Sincerely,

Dear Paul & Katherine Schmidt Scholarship Fund,

I would like to take a moment and express my sincerest gratitude for the scholarship monies you have awarded me. Although I did not have the chance to know Mr. and Mrs. Schmidt, I feel we would have viewed education with the same value. Starting at an early age, I always enjoyed learning. I looked up to my teachers awe inspired of what they knew that I did not. One of the reasons that I chose to pursue a degree in the medical field is so that I could learn something new every day of my life.

The scholarship is very humbling. The monies will help alleviate many of the stresses associated with paying for college. Personally, I will be able to spend more time focuses on my studies rather than trying to clock more work hours. From what I've heard, I will need every spare moment I can get.

This fall I will be attending The University of Wisconsin-Madison for a degree in neurobiology. I am planning on becoming a neuroradiologist or a neuroscientist. I am excited for the new opportunities in store, but I will always remember the educators who molded me into who I am today. Thank you for supporting my future educational endeavors!

Sincerely,

Dear Purple and Gold Fund,

I am writing to thank you for your very generous gift of \$500. I was beyond ecstatic to learn that I had earned this honor. I can only imagine how much work goes into the planning of the Purple and Gold event. I thank you so much for your generosity and willingness to give to the community. I hope that one day I am able to give in such a way as you do.

I am going to MSOE as a Computer Science major with a focus on AI (artificial intelligence). I am really excited to start my journey in this field. As an AI programmer, I would help create or fix artificially intelligent programs. These programs can and will be used for almost anything in the future. Uses include programs like Siri, or a personal assistant, to a program that identifies diseases or ailments from x-rays or MRIs, and even automating normal human activities, like driving or operating vehicles. Thanks to you, I am able to feel more secure about pursuing this career at such a great University, as it can get quite expensive. I am beyond thankful for that.

By awarding me with this scholarship, you have helped lighten the financial burden that comes with going to college. This will allow me to focus more on my studies during my free time. Your generosity has helped fuel my fire to give back to the community, and I hope one day I will be able to help someone achieve their goals in such a way that you are helping me. Thank you again!

I am writing to thank you for your very generous gift of \$2,000. I was beyond ecstatic to learn that I had earned this incredible honor. After reading about Mr. and Mrs. Desing, I am very happy to represent them. Using this money, I will attend college to pursue a major that has many applications, most of which help the general good of the public. I already help the community in many ways, such as volunteering as a coach for flag football, or even a youth member on the City Council. I hope to one day be able to give back to the community such as the Desings did.
